

ICONTEC, based on ISO 14064-3:2019, confirms that:

The results of the project verification

Proyecto REDD+ JIGRANTU

Managed by

Community Council of La Grande, Community Council Río Jiguamiandó and Community Council Turriquitadó

BIOTRADE S.A.S

Located in the northeastern part of the department of Chocó, to the municipalities of Carmen del Darién and Riosucio, Colombia

Presents the following results:

1. The objective of the activity was to assess the compliance of the GHG mitigation project with the requirements of ISO 14064-2:2019 and verify it under the principles and criteria of ISO 14064-3:2019 and ISO 14065:2020, BIOCARBON and the BCR Standard – from differentiated responsibility to common responsibility. Version 3.2 as of September 23, 2023; and the requirements of the METHODOLOGICAL DOCUMENT AFOLU SECTOR. Quantification of GHG Emission Reductions. REDD+ Projects. BCRO002. Version 3.1 of September 15, 2022, for the **Proyecto REDD+ Jigraantu**, which has a duration of 30 years, however, and complying with the accreditation period, 30 years are contemplated, which runs from 01/01/2019 to 31/12/2048. The project area is 68,272.85 ha and the verified area for the project (forest area, eligible area) is 68,272.85 ha which were verified for the credit period 01/01/2019 to 31/12/2022.
2. The verification carried out by ICONTEC was based on information described in the **PDD Proyecto REDD+ Jigraantu Version 4 Document** and **MR Proyecto REDD+ Jigraantu Version 4 Document**, the team verified compliance with the requirements, and obtained access to documents, processes, areas, records, and information through the relevant personnel at the disposal of BIOTRADE S.A.S.
3. The level of assurance is reasonable for the information reported in this statement and is an integral part of the document GHG MITIGATION PROJECT VERIFICATION AUDIT REPORT issued by ICONTEC ⁽¹⁾.
The assurance level was higher than 95% (reasonable) and the maximum material discrepancy of the data accepted was $\pm 5\%$ in accordance with Article 44 of Resolution 1447 of 2018 of the Ministry of Environment and Sustainable Development, for the information reported in this statement and is an integral part of the JOINT VALIDATION AND VERIFICATION REPORT **Proyecto REDD+ Jigraantu**, issued by ICONTEC ⁽¹⁾.
4. The total reductions verified by ICONTEC for this monitoring period 01/01/2019 to 31/12/2022 are 1,471,191 tCO₂e, the net reductions of the project are 1,117,669 tCO₂e.
5. The data and information provided by BIOTRADE S.A.S. to the verification team are historical in nature and, together with the evidence collected during the on-site audit, provide the inputs required to generate the declaration.
6. The verification team concludes that the GHG statement reported by the project is free of material discrepancies and that the verification activities provide the level of assurance agreed at the beginning of the verification process.

This statement is addressed to BIOCARBON REGISTRY and other interested parties and is issued on 05/04/2024.
