

## IMPARTIALITY STATEMENT CDM-14065

### 1. INTRODUCTION

During provision of Validation and verification services ICONTEC shall, among others, work in a credible, independent, non-discriminatory and transparent manner. In this framework the following declaration enables ICONTEC to verify that no conflict of interest exists between the personnel involved in the validation and verification of a specific Project Activity (PA) or Programme of Activities (PoA) (auditors, technical experts or technical reviewers) and the PA or PoA itself.

This statement shall be made by every person linked to ICONTEC by contract of employment or services, either with definite or indefinite term and all external providers.

This statement is a complement of the ethics code previously signed by every person involved in the Validation and verification services, which represents a guide to action and decision for our employees, contractors and subcontractors, within their habitual activities.

### 2. SANCTIONS

Any contravention of this statement may lead to the withdrawal of the subcontracted professional from the payroll of the Institute, according to the document "Work Internal Regulation" and the "Contract of Service Provision".

### 3. STATEMENT

In relation to climate change PA, PoA or GHG inventory and its project participants and other participants such as developers, consultants and funders I hereby state that I am independent and free from any bias that may compromise my ability to make impartial decisions related to the VALIDATION and VERIFICATION/CERTIFICATION of these PA, PoA or GHG inventory
