

## PROJECT SUMMARY

### Mixed planting of native and non-native species in Paraguay-I

Project holder	Desarrollos Madereros S.A.
Legal representative of the project holder	Ricardo Kiriluk
Email address of the project holder	paquino@pomeramaderas.com
Phone number of the project holder	+5493765550016
Contact person of the project holder	Aquino Pablo

Account holder	Desarrollos Madereros S.A.
Legal representative	Ricardo Rodolfo Kiriluk / Alfonso Cáceres Albino Ramón
Tax Identification Number (NIT)	800278275
Identification	4589550
Email address	paquino@pomeramaderas.com
Phone	90059563123623
Address	Supercarretera Itaipu Km13
City	Hernandarias
Contact person	Pablo Aquino

Sector	Agriculture, forestry and other land uses (AFOLU)
Type of Project	Reforestation

Project description	<p>Afforestation of 172,8 ha on suboptimal quality soils at two sites in the Paraná basin in Paraguay. Prior to this project, these lands were used for extensive cattle ranching and, in the absence of the project, would maintain that use. The project design is highly innovative, as it uses fast-growing non-native plants (<i>Eucalyptus grandis</i>) to condition the land and shade it before its harvest, with a view to incorporate a mix of native plants that will not be harvested. The final result of this project will be a forest of native plants in former pastures. POMERA has 20 years of experience in the forestry sector, operating with great social and environmental sensitivity. This afforestation project is being certified by the FSC (Forestry Stewardship Council) and takes into account the Good Forestry Practices suggested by the Paraguayan authorities to avoid negative impacts on biodiversity, local communities, and the water balance.</p>
Location	<p>Municipio de Hernandarias, Departamento de Alto Paraná, Paraguay. Municipio San Juan Nepomuceno, Departamento Caazapá, Paraguay.</p>
Project participants	<p>Desarrollos Madereros S.A.</p>
Special category	
ODS	<p>Goal 13: Take urgent action to combat climate change and its impacts, Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss, Goal 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all, Goal 3: Ensure healthy lives and promote well-being for all at all ages</p>
Quantification period	<p>2018-12-01 To 2058-11-30</p>
Methodology	<p>BCR0001_ARR Activities</p>

Estimated amount of GHG reductions / removals (ton CO2e)	16,711.00
Project ID	BCR-PY-451-14-001
Inscription date (dd/mm/aaaa)	27/11/2022

Verification Period (dd/mm/aaaa)	Verified GHG emission reductions or removals (t CO2e)	Conformity Assessment Body
