Sector	Energy industries (renewable sources / energy efficiency)
Type of Project	Grid-connected electricity generation from renewable sources

Project description	Enür Solar Power Plant Bundle Project is a group of five (5) individual unlicensed Photovoltaic Solar Power Plants (SPP) located in boundary of Beleneoluk village, Orhaneli District in Bursa province of Türkiye. The Bundle project activity is a grid-connected electricity generation from renewable source project in the energy sector. The purpose of the project is to generate electricity energy from renewable sources by using solar power and providing to the Turkish National Grid resulting with GHG emission reduction. The project aims to contribute to mitigate the effects resulted by climate change by reducing 4,887 tCO <sub>2</sub> emission from electricity generation in fossil fuel fired power plants that are displaced due to the project activity.
Location	Orhaneli, Bursa, TÜRKİYE
