

PROJECT SUMMARY

Proyecto Forestal El Dorado

Project holder	Reforestadora El Dorado
Sector	Agriculture, forestry and other land uses (AFOLU)
Type of Project	Afforestation
Project description	<p>The Forestal carbon proposal Reforestadora El Dorado (Angelik and La Maria properties) seeks to establish in the municipality of La Primavera (Department of Vichada, in the Llanos Orientales of Colombia), a reforestation project with commercial forest species and at the same time promote the recovery and improvement of remaining natural forests and Riverside forests, under passive restoration actions, aimed, among other objectives, at fixing atmospheric carbon through the growth and development of plantations and natural forests. This environmental service contributes to the goals of reducing greenhouse gas emissions at a global level, gives dynamism to the international carbon market and the local market, driven by the policies of a carbon tax for consumption and burning of fossil fuels, and its potential non-causation when carbon credits are purchased to achieve carbon neutrality for companies required to pay the tax.</p>
Location	La Primavera, Vichada, Colombia
Project participants	Reforestadora El Dorado
Special category	
ODS	<p>Goal 12: Ensure sustainable consumption and production patterns, Goal 13: Take urgent action to combat climate change and its impacts, Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss</p>

Quantification period	2015-06-30 To 2045-06-30
Methodology	BCR0001_ARR Activities
Estimated amount of GHG reductions / removals (ton CO2e)	0.00
Project ID	BCR-CO-956-14-001
Inscription date (dd/mm/yyyy)	10/09/2024

Verification Period (dd/mm/yyyy)	Verified GHG emission reductions or removals (t CO2e)	Conformity Assessment Body
